Proton Ertiga is based on Suzuki Ertiga's MPV model that was crash tested by ASEAN NCAP in April this same year. ASEAN NCAP extended the Suzuki MPV's rating to the model now produced by Proton in which the new Proton Ertiga was awarded with 4-Star rating at 12.39 points for the Adult Occupant Protection (AOP) category. In the Child Occupant Protection (COP), the B-segment MPV achieved a rating of 2-Star by meeting 33% compliance due to seatbelt as child restraint system method in the tested variant. Nevertheless, ISOFIX and top tether are available in all variants. Similar to its predecessor, the Ertiga is equipped with standard dual airbag for its frontal occupants. The tested variant had Seatbelt Reminder System (SBR) for driver only and Anti-lock Braking System (ABS) offered as optional. However, both items are available as standard across all variants. Electronic Stability Control (ESC) is absent in all the model's variants.
